Asahi India Glass Ltd.

Asahi India Glass Ltd. (AIS) is India's leading integrated glass and window solutions company and a dominant player both in the automotive and building & construction segments. Our product solutions, spanning the entire breadth of automotive, building & construction, and consumer glass, are designed to deliver aesthetic and functional benefits.

AIS Windows, from AIS, India's leading glass manufacturer, offers a premium range of doors & windows in uPVC & Aluminium. Featuring exceptional quality and a comprehensive range, AIS Windows has options to suit a host of door and window preferences. We offer end-to-end solutions, from recommendations on our high-performance glass and variety of stylish doors & windows to easy and hassle-free installation and after-sales service.

A woman with dark hair in a ponytail, wearing a black and white striped long-sleeved shirt and blue jeans, is sitting on a wooden floor. She is looking out a large window with a young child who is standing and looking out the window. The child is wearing a white onesie with small red polka dots. There are two potted plants on the windowsill. The text 'Windows' is written in large white letters, and 'The Eyes of Your Space' is written in smaller white letters below it.

Windows

The Eyes of Your Space

Windows are often considered the eyes of a space, and for good reason. They provide a vital connection to the outside world, allowing natural light and fresh air to enter a room. But windows do so much more than just provide functional benefits. They play a crucial role in elevating the look and feel of a space. The right windows can add character and charm, creating a warm and inviting atmosphere. Large windows can make a space feel more open and expansive, while smaller windows can add a cosy and intimate feel.

The right window treatments can enhance the beauty of the windows, adding texture and colour to a room.

With the right design, windows can fill a space with energy, making it a more comfortable and inspiring place to be. At AIS Windows, this is exactly what we offer you. Our end-to-end solutions will truly transform your space and protect you from noise, dust, rain, and rising energy costs. By combining the right glass product with the best profiles and hardware, we deliver comprehensive solutions without compromising on your aesthetics or performance expectations.

The AIS Windows Advantage

At AIS Windows, we provide comprehensive services, from consultation and glass design selection to delivering the perfect solution. Our skilled technicians will be by your side during every phase of the installation process, ensuring a seamless experience.

Lead-free

A background image showing two men in green overalls and gloves installing large white-framed uPVC windows. One man is using a power drill on the left side of a window, while the other is using a screwdriver on the right side. The windows are set into a dark wall, and the view outside shows a clear blue sky with some light clouds.

Customer's choice

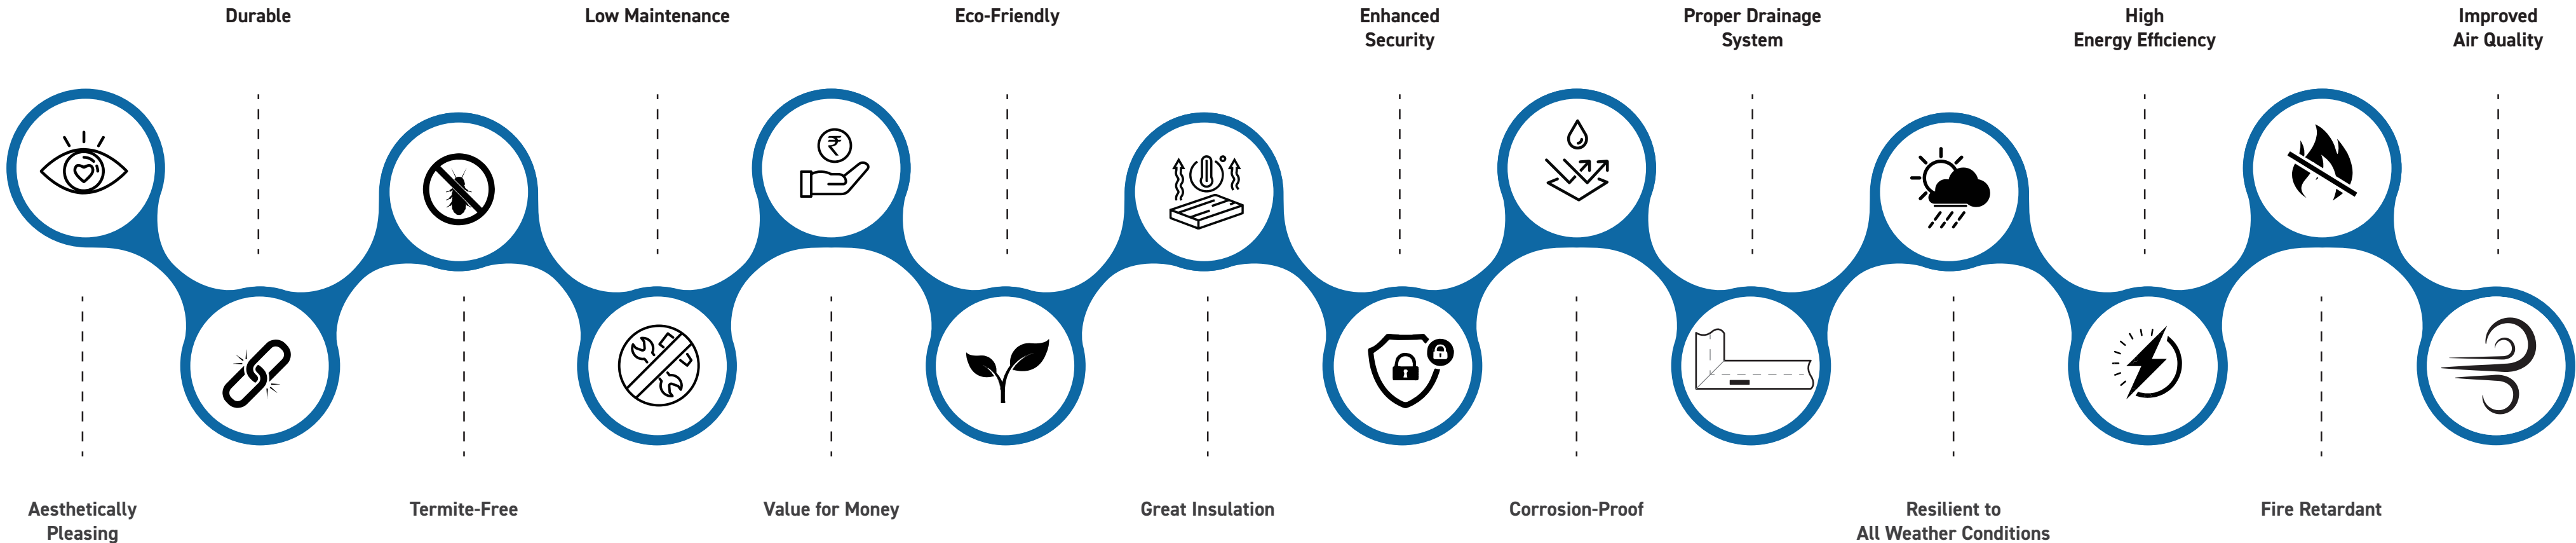

uPVC Windows

uPVC windows have emerged as a stylish and practical option for homeowners who wish to add a touch of sophistication and functionality to their space. The perfect combination of aesthetics and performance, they provide a plethora of benefits to their users. They are highly energy-efficient, keeping your space cosy and warm during the winter while reducing heating costs. The best part? uPVC windows are incredibly durable, requiring minimal maintenance, and are resistant to weathering, rotting, and fading, ensuring they look great for years to come.

With a wide range of colours and styles available, uPVC windows are an excellent choice for anyone looking for an affordable, low-maintenance, and energy-efficient window solution that adds value and beauty to their space.

At AIS Windows, we offer a wide range of uPVC windows that cater to the diverse needs and preferences of our customers. Whether you want a classic look or a modern aesthetic, we have got you covered.

Solutions by AIS Windows

Through years of research and development, we have developed cutting-edge solutions to a variety of everyday problems.

Anti-Pollution Solution

Precision-manufactured and installed uPVC and Aluminium anti-smog doors and windows from AIS Windows block out around 95% or more of the particles and smog infiltrating your home. These smog-resistant doors and windows are intelligently engineered to prevent all types of pollutant leakage into the interiors when closed.

Acoustic Solution

AIS Windows' noise-cancelling doors and windows for homes are made up of two major components: the window frame and the glass, both loaded with incredible aesthetic and noise-cancelling capabilities to bring down all the unwanted and unpleasant noises. AIS Windows provides premium-quality soundproof glass for homes in a wide range of sizes and thickness to help protect customers from the noise that invisibly penetrates their spaces.

Privacy Solution

Be it a home or an office space, privacy finds itself in high demand. What if you could access privacy at the touch of a button? AIS Swytchglas makes this possible without obstructing natural light. Made using Polymer Dispersed Liquid Crystal (PDLC) technology, our exclusive smart glass offers you privacy on demand; with the flick of a remote control button, you can change its light and heat transmission properties. And what's more, to complement its functionality, AIS Swytchglas also lends your spaces a unique aesthetic appeal.

Safety & Security Solution

Prioritising your and your family's safety, at AIS Windows, we offer a comprehensive range of premium-quality glass products, including tempered safety glass, PVB laminated glass, and heat-toughened safety glass, to ensure injury-free interiors and unwavering security for our valued customers.

Energy Efficiency Solution

Engineered with cutting-edge technology, our high-performance doors and windows insulate heat when installed with our energy-efficient glass. By preventing heat from entering indoors during summers or escaping in winters, they reduce the load on heating and cooling systems without blocking the entry of daylight into your spaces. These essential heat-insulating and solar-control properties help save money and energy while ensuring a comfortable indoor temperature.

Why Should You Visit The AIS Windows Experience Centre?

Windows and doors play a significant role in defining the overall aesthetic of your dream space. At AIS, we strongly recommend visiting our experience centre to gain a precise understanding of the products we offer. With this visit, you can ensure the quality, appearance, and feel of our products and how they will fit and enhance your space. We invite you to explore a state-of-the-art, completely phygital experience that seamlessly merges the real world with the virtual.
