Shower Enclosures
Redefining Spaces

Step into a pristine experience

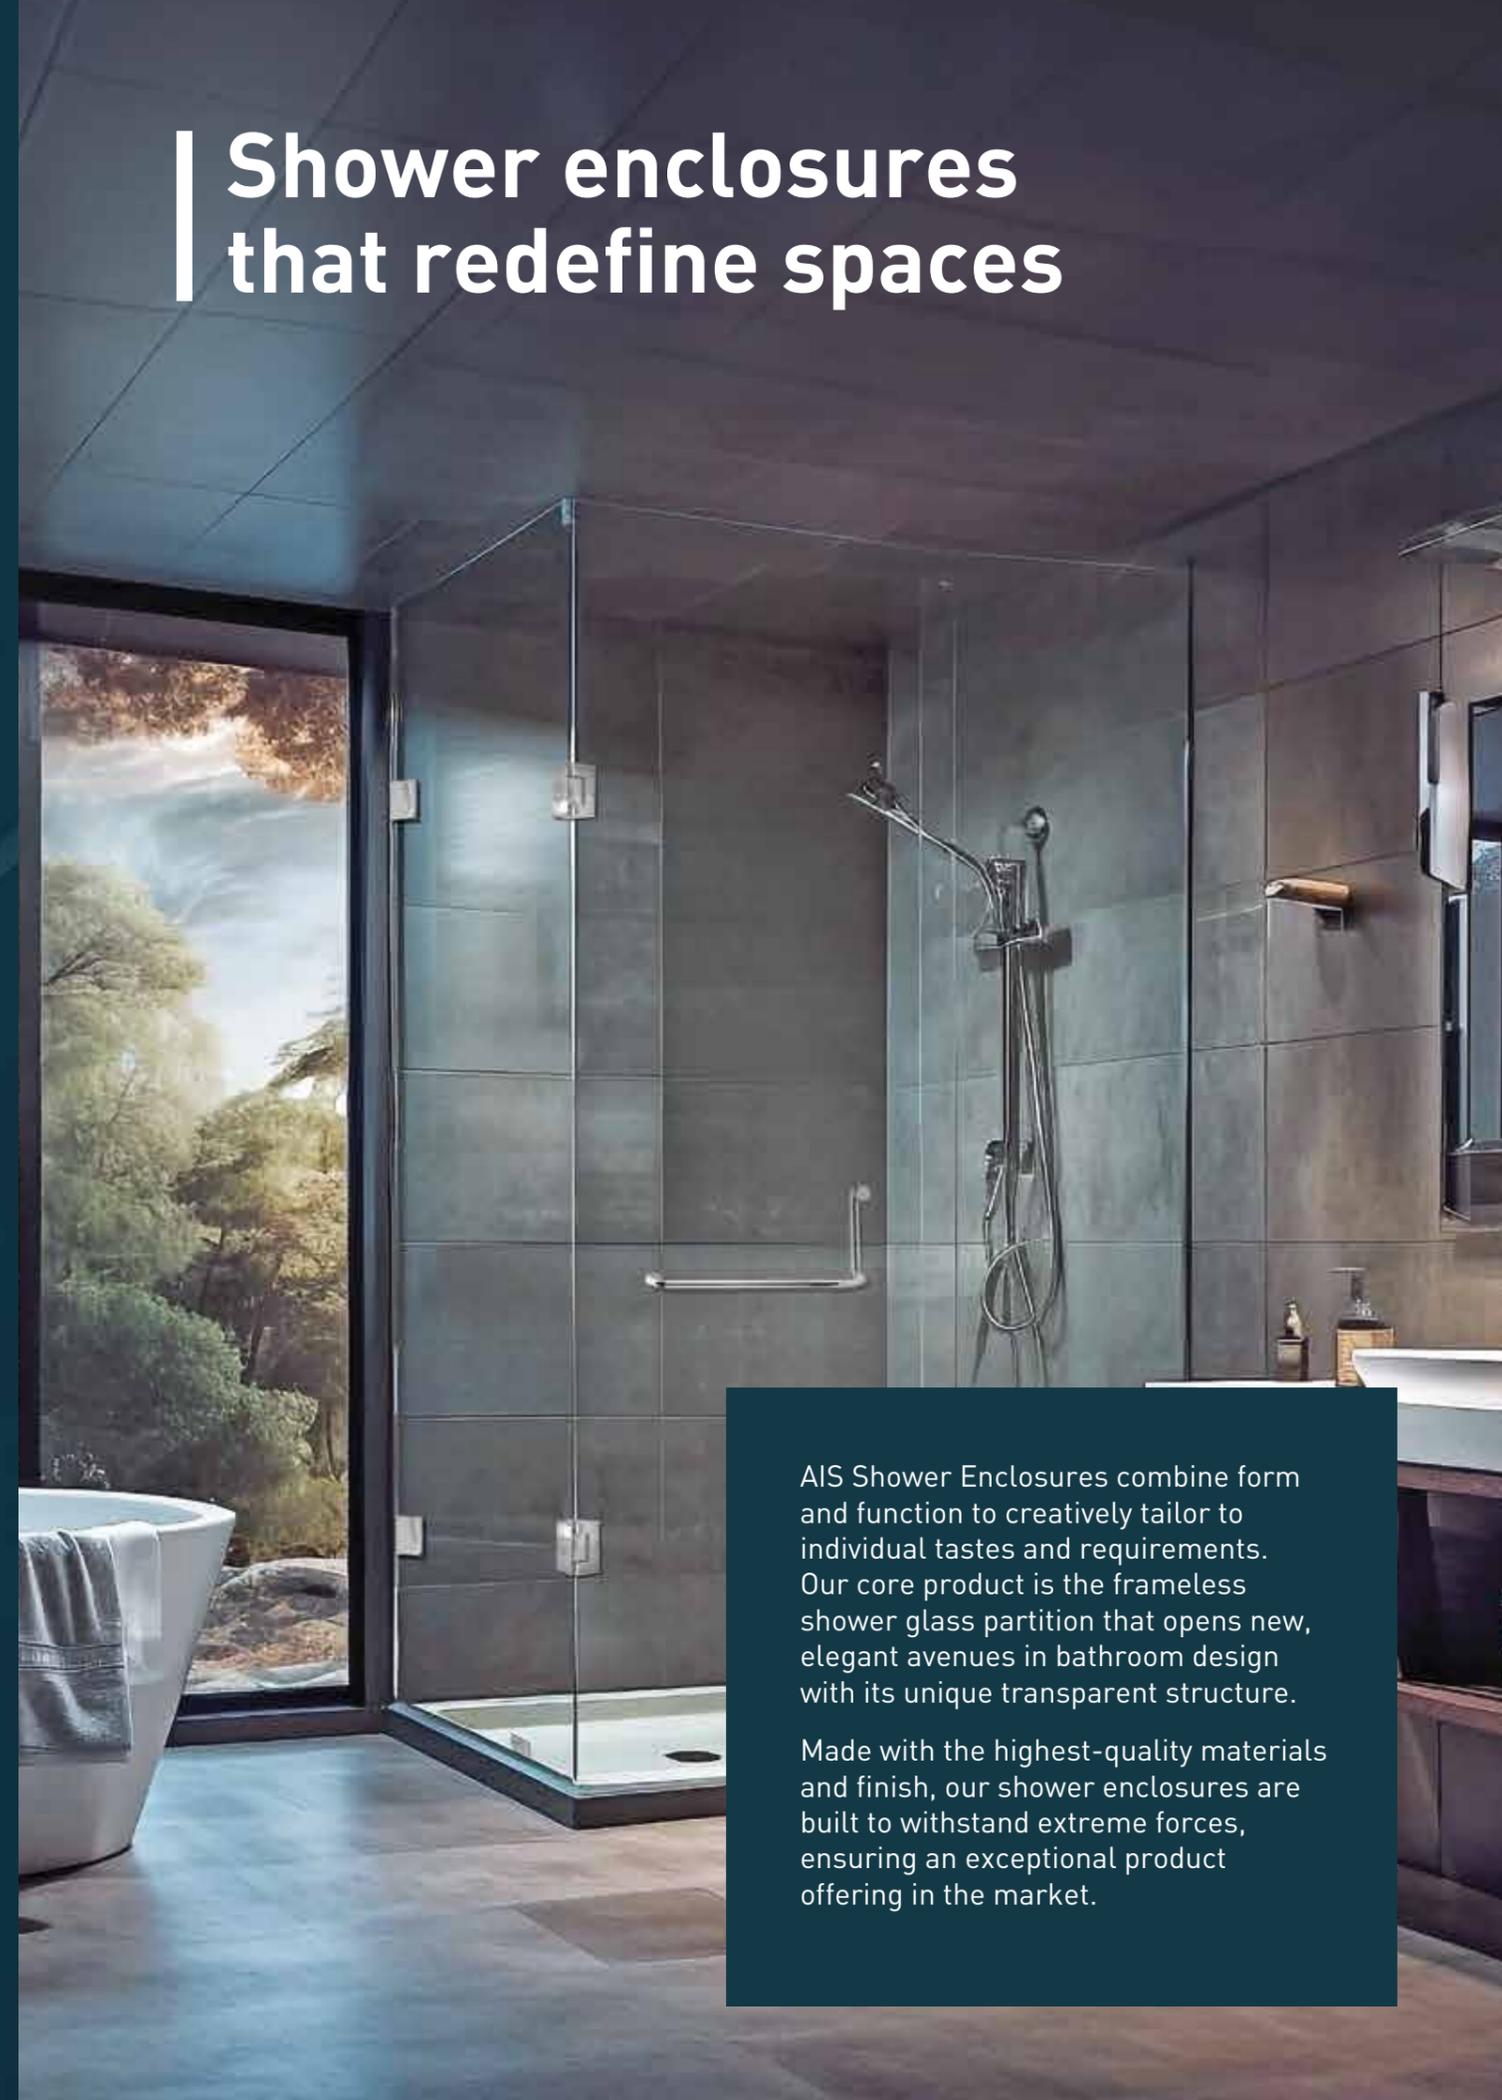

Asahi India Glass Ltd.

Asahi India Glass Ltd. (AIS) is India's leading integrated glass and window solutions company and a dominant player both in the automotive and building & construction segments. Our product solutions, spanning the entire breadth of automotive, building & construction, and consumer glass, are designed to deliver aesthetic and functional benefits.

**We are delighted to
introduce
the all-new Shower Enclosures**

an addition to our ever-growing portfolio
of innovative glass offerings.

Shower enclosures that redefine spaces

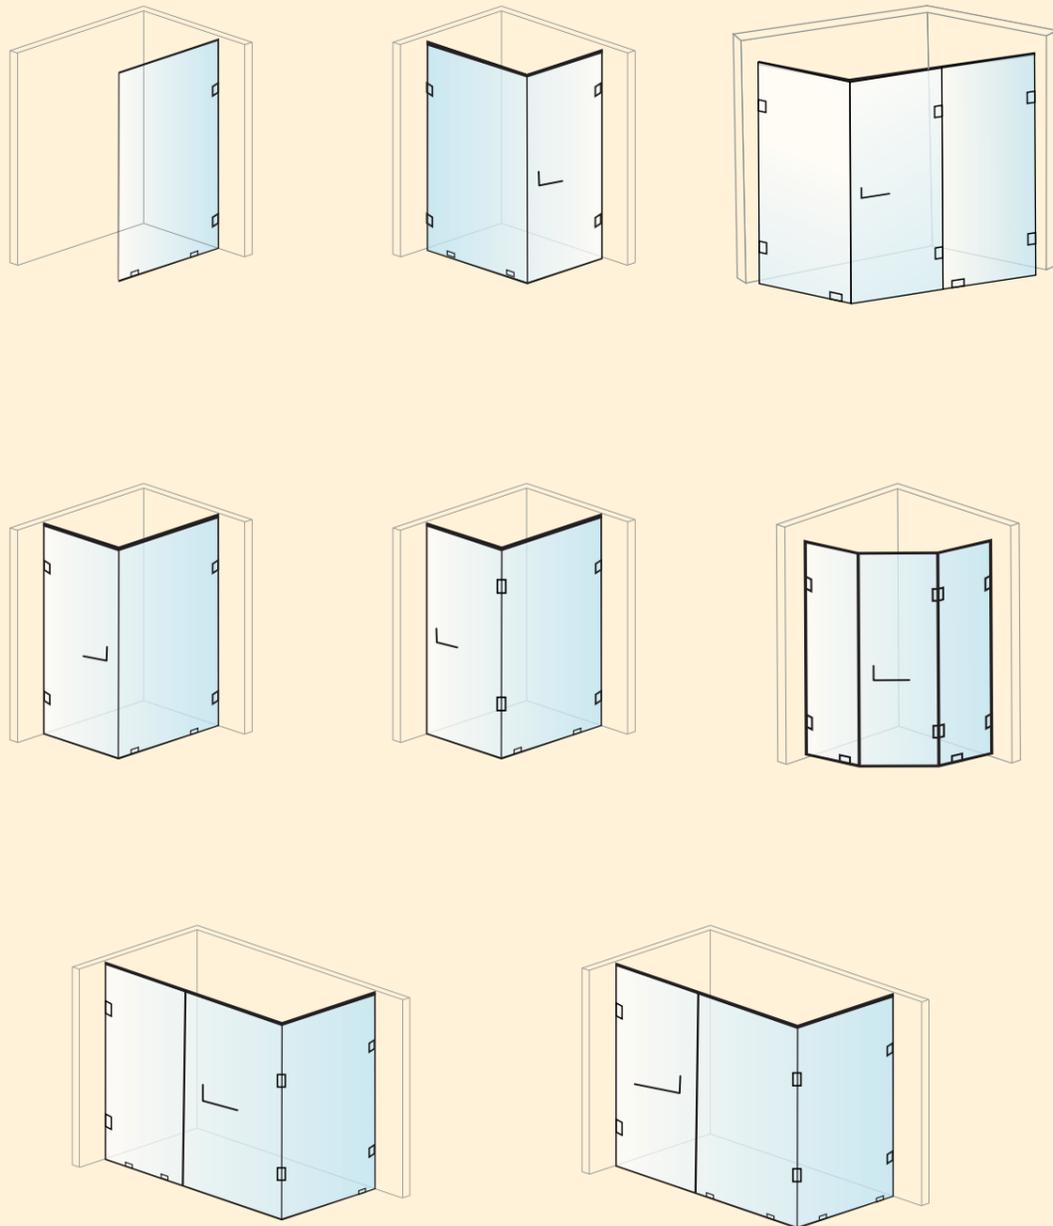

AIS Shower Enclosures combine form and function to creatively tailor to individual tastes and requirements. Our core product is the frameless shower glass partition that opens new, elegant avenues in bathroom design with its unique transparent structure.

Made with the highest-quality materials and finish, our shower enclosures are built to withstand extreme forces, ensuring an exceptional product offering in the market.

AIS Shower Enclosures

Glass that meets your style

Why are AIS Shower Enclosures the best choice?

Custom Made

Personalised design as per bathroom requirements

Extremely Safe Glass

Toughened glass adhering to IS 2553 Part 1 & EN 12150-1 Standards

Leak Proof

With water retention properties tested as per EN-14428:2015 Standards

Doorstep Installation

Thorough installation and handover by the AIS service team

World-Class Hardware

- Trendy, brass hinges for an enhanced aesthetic appeal
- Soft-close hinges with automatic closure from 30-degree angle for impact protection

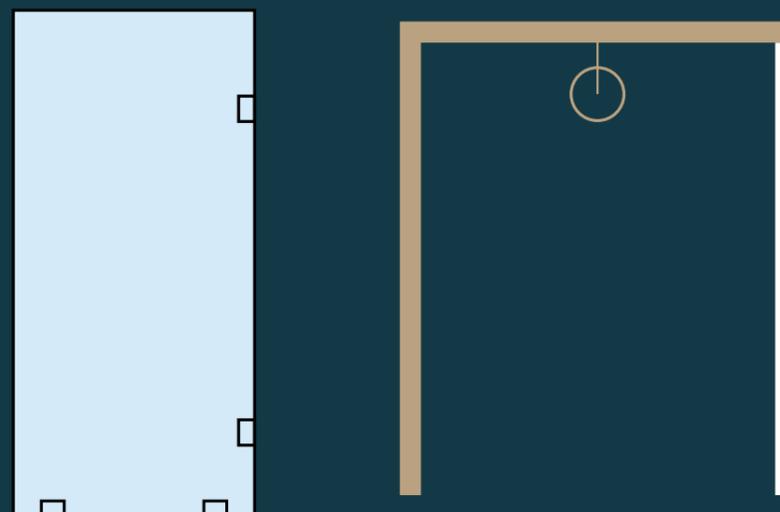

Shower Protect Technology

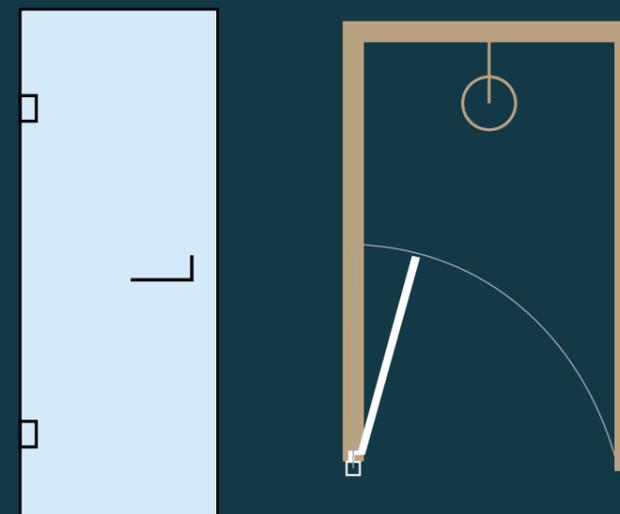

- Lowers maintenance costs
- 'Non-stick', easy-clean surface makes cleaning much easier
- Anti-limescale action resists limescale buildup
- Anti-bacterial properties resist the adhesion of bacteria for better hygiene

ONE FIXED GLASS WITHOUT DOOR

ONLY DOOR WITHOUT FIXED GLASS

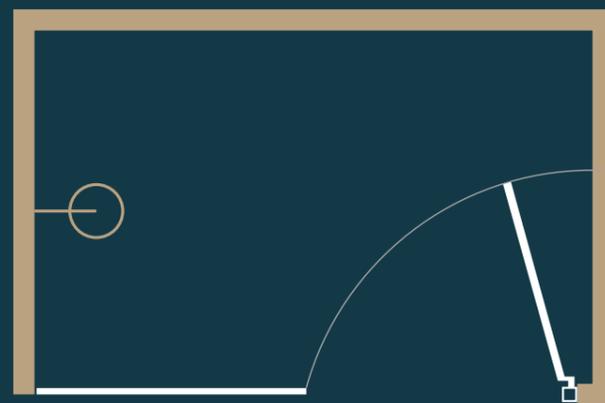

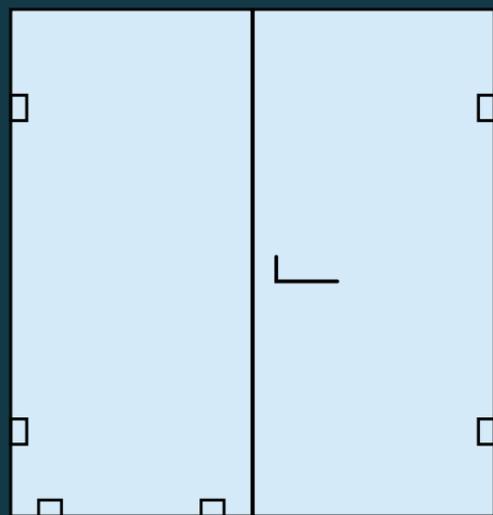

A single glass panel is placed on the outside of the shower space, enabling entry from one side of the area.

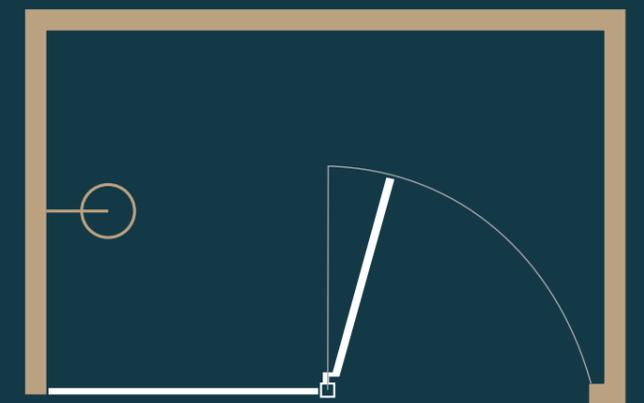

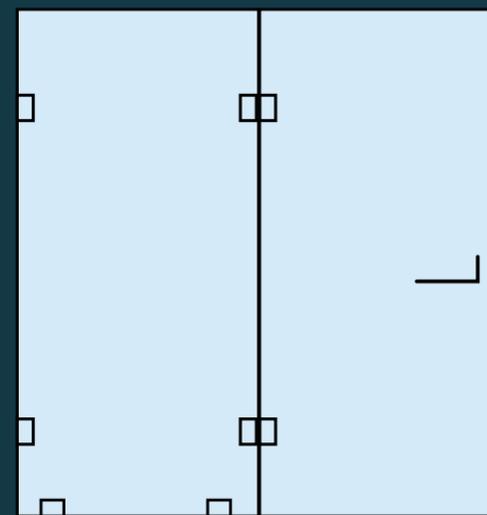

A single glass door opens to provide direct entry into the shower space.

ONE FIXED GLASS & ONE DOOR (HINGES ON WALL)

ONE FIXED GLASS & ONE DOOR (HINGES ON GLASS)

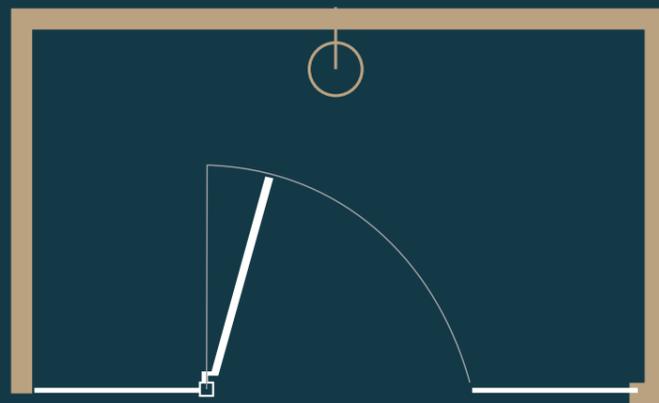

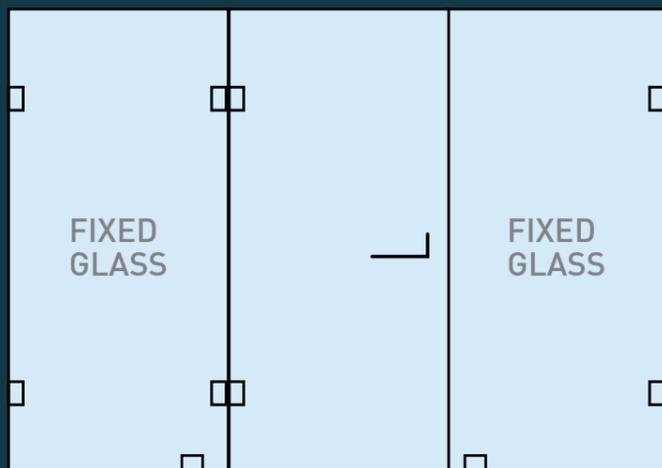

A glass door is placed next to a fixed glass panel, allowing entry from only one side of the shower enclosure area.

A glass door is beside a fixed glass panel, swinging open for access from only one side of the shower enclosure area.

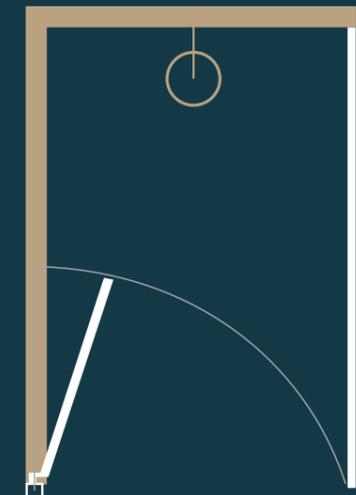

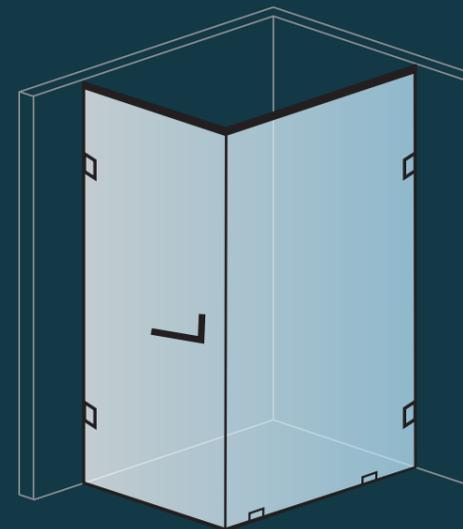

TWO FIXED GLASS & ONE DOOR IN THE MIDDLE

A swinging glass door is positioned between two fixed glass panels for central entry to the shower space.

ONE FIXED GLASS & ONE DOOR (HINGES ON WALL)

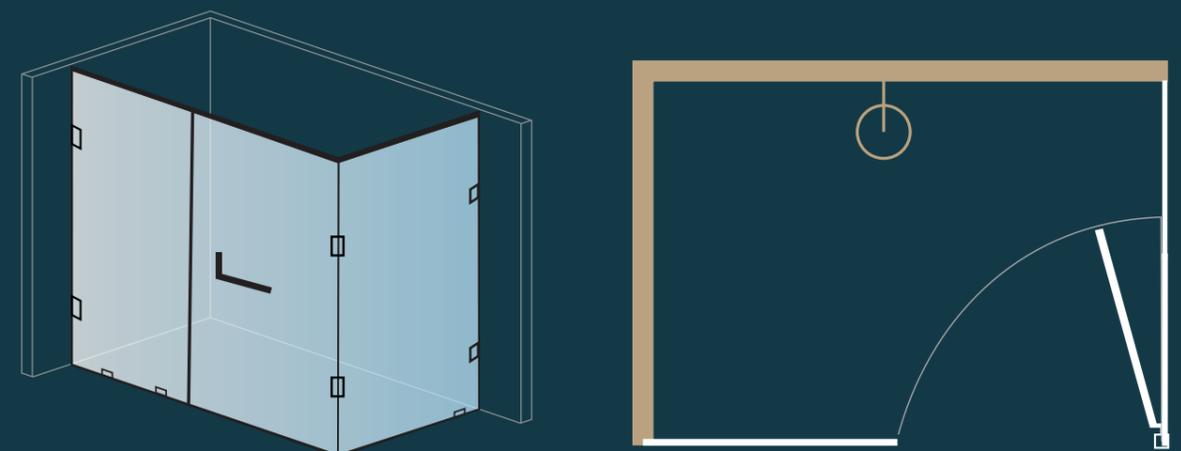

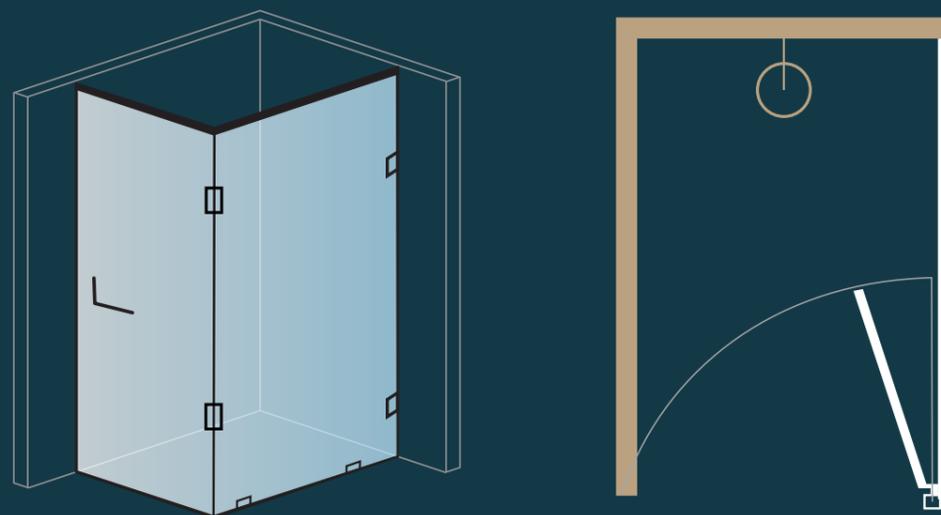

A fixed glass panel and glass door are assembled at a 90-degree angle, providing access from one side of the enclosure.

ONE FIXED GLASS & ONE DOOR (HINGES ON GLASS CORNER)

TWO FIXED GLASS & ONE DOOR (HINGES ON FIXED GLASS)

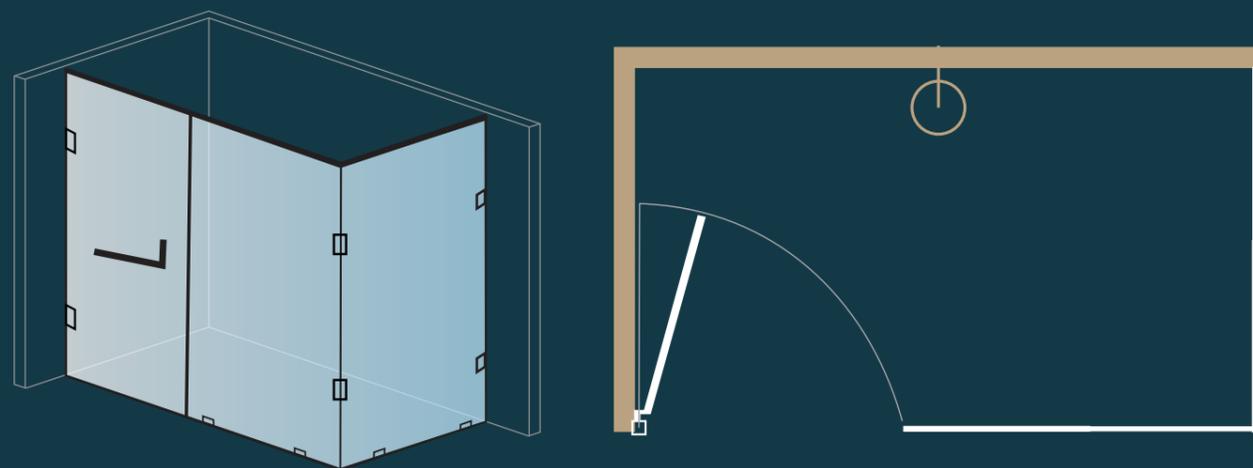

A glass door and a fixed glass panel are placed perpendicular to each other, where entry to the shower area is allowed from one side only.

A fixed glass panel is placed next to a glass door to facilitate entry from one side, while another fixed glass panel positioned perpendicularly closes the shower enclosure.

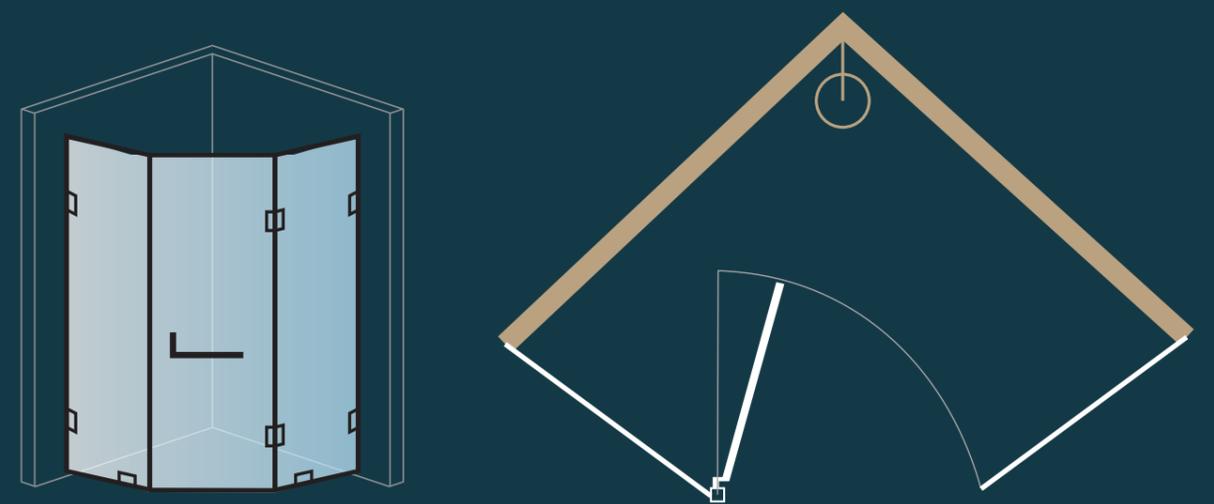

TWO FIXED GLASS & ONE DOOR (HINGES ON WALL)

Entry to the shower space is provided through a glass door next to a fixed glass panel, while another fixed glass panel placed at a 90-degree angle completes and closes the shower enclosure.

TWO FIXED GLASS + ONE DOOR IN MIDDLE- 135° CORNER SHOWER PARTITION

A glass door offers central access to the shower area, with two fixed glass panels placed at an angle on either side of the door.

A premium glass solution for your spaces

As glass is a significant component in a shower enclosure, we ensure to use the highest quality of toughened glass that conforms to safety standards. We design our shower enclosures with industry-grade materials to bring you closer to a redefined bathing space.

-  5 times stronger than normal/annealed glass
-  Available in 8mm thickness
-  Shock- and impact-resistant

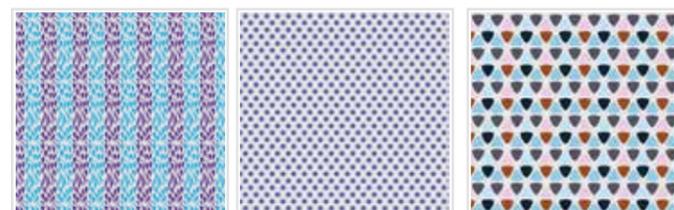

Three glass options available:

Clear

Tinted

Designer Frosted Film (Available in 3 Designs)

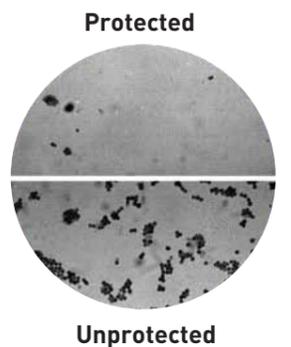

Shower Protect Technology

Cleaner, healthier spaces now made possible

Typically, hard water usage results in water-resistant spots to appear on unprotected glass, giving it an unappealing appearance. Additionally, limescale from the hard water etches itself onto the glass surface, with high levels of humidity accelerating the corrosion process.

Our easy-to-maintain shower enclosures are manufactured with an exceptional 'Shower Protect Technology' that surpasses normal glass with a variety of features to ensure its appearance and durability.

-  Durable, 'non-stick' anti-limescale protection
-  Resistant to the adhesion of bacteria, staining and corrosion for a more hygienic environment
-  Lowered impact of surface contamination for reduced maintenance
-  Saves cleaning time and effort
-  Optically clear glass for a pristine appearance
-  No need for harsh or abrasive cleaning products and methods

HARDWARE FEATURES

ON HARDWARE

*Terms & conditions apply

AIS Shower Enclosures are offered with brass hardware to ensure durability, corrosion resistance, enhanced safety, and aesthetic appeal.

Trendy design for an aesthetically appealing look

Hinges designed for automatic closure from 30-degree angle for impact protection

Stability test conducted for hinge strength

Rust-proof, anti-corrosion fittings and fixtures for durability

Sealing

- Excellent water-resistant and heat-insulation properties
- Enhanced durability with high-impact strength
- Easy to install
- Non-hazardous, RoHS-compliant material
- Remains transparent throughout to maintain aesthetic appeal

Available in three colour options:

QUALITY AND SAFETY FEATURES

As an industry benchmark, AIS Shower Enclosures adhere to strict international quality and safety standards.

The Glass Conforms to Quality Checks as per IS 2553-1 and EN 12150-1 Standards

-  Visual tests for chipping, scratches, and any other visible defects
-  Ball drop test for impact resistance
-  Fragmentation test to check breakage pattern
-  Zebra test for vision waviness
-  Bow/bending test to ensure straightness of the glass

Shower Enclosure Meets Quality Checks as per EN 14428:2015 Standards

-  Impact resistance ensures safety
-  Corrosion resistance provides durability
-  Endurance test enables increased life cycle
-  Stability guarantees resistance against human body impact
-  Water retention ensures a wet and dry area

THE IMMERSIVE AIS ADVANTAGE

The Shower-in-a-Box Concept

- All essential fittings and glass parts are conveniently packed in a single box, streamlining the purchase and installation process.
- This inventive approach guarantees customers have everything they need for their shower enclosure project, maximising convenience and ease of use.

Mastering Glass Artistry

- AIS leads the industry with over 30 years of experience in glass processing.
- We excel in glass artistry, appreciating its significance in modern architecture and design.
- Our expertise enables us to showcase glass' versatility and visual appeal, making it a cornerstone of contemporary trends.

Blending Functionality and Creativity

- AIS Shower Enclosures embody the perfect fusion of practicality and technical finesse.
- Each enclosure is crafted to satisfy practical requirements while reflecting modern lifestyles and artistic expression.

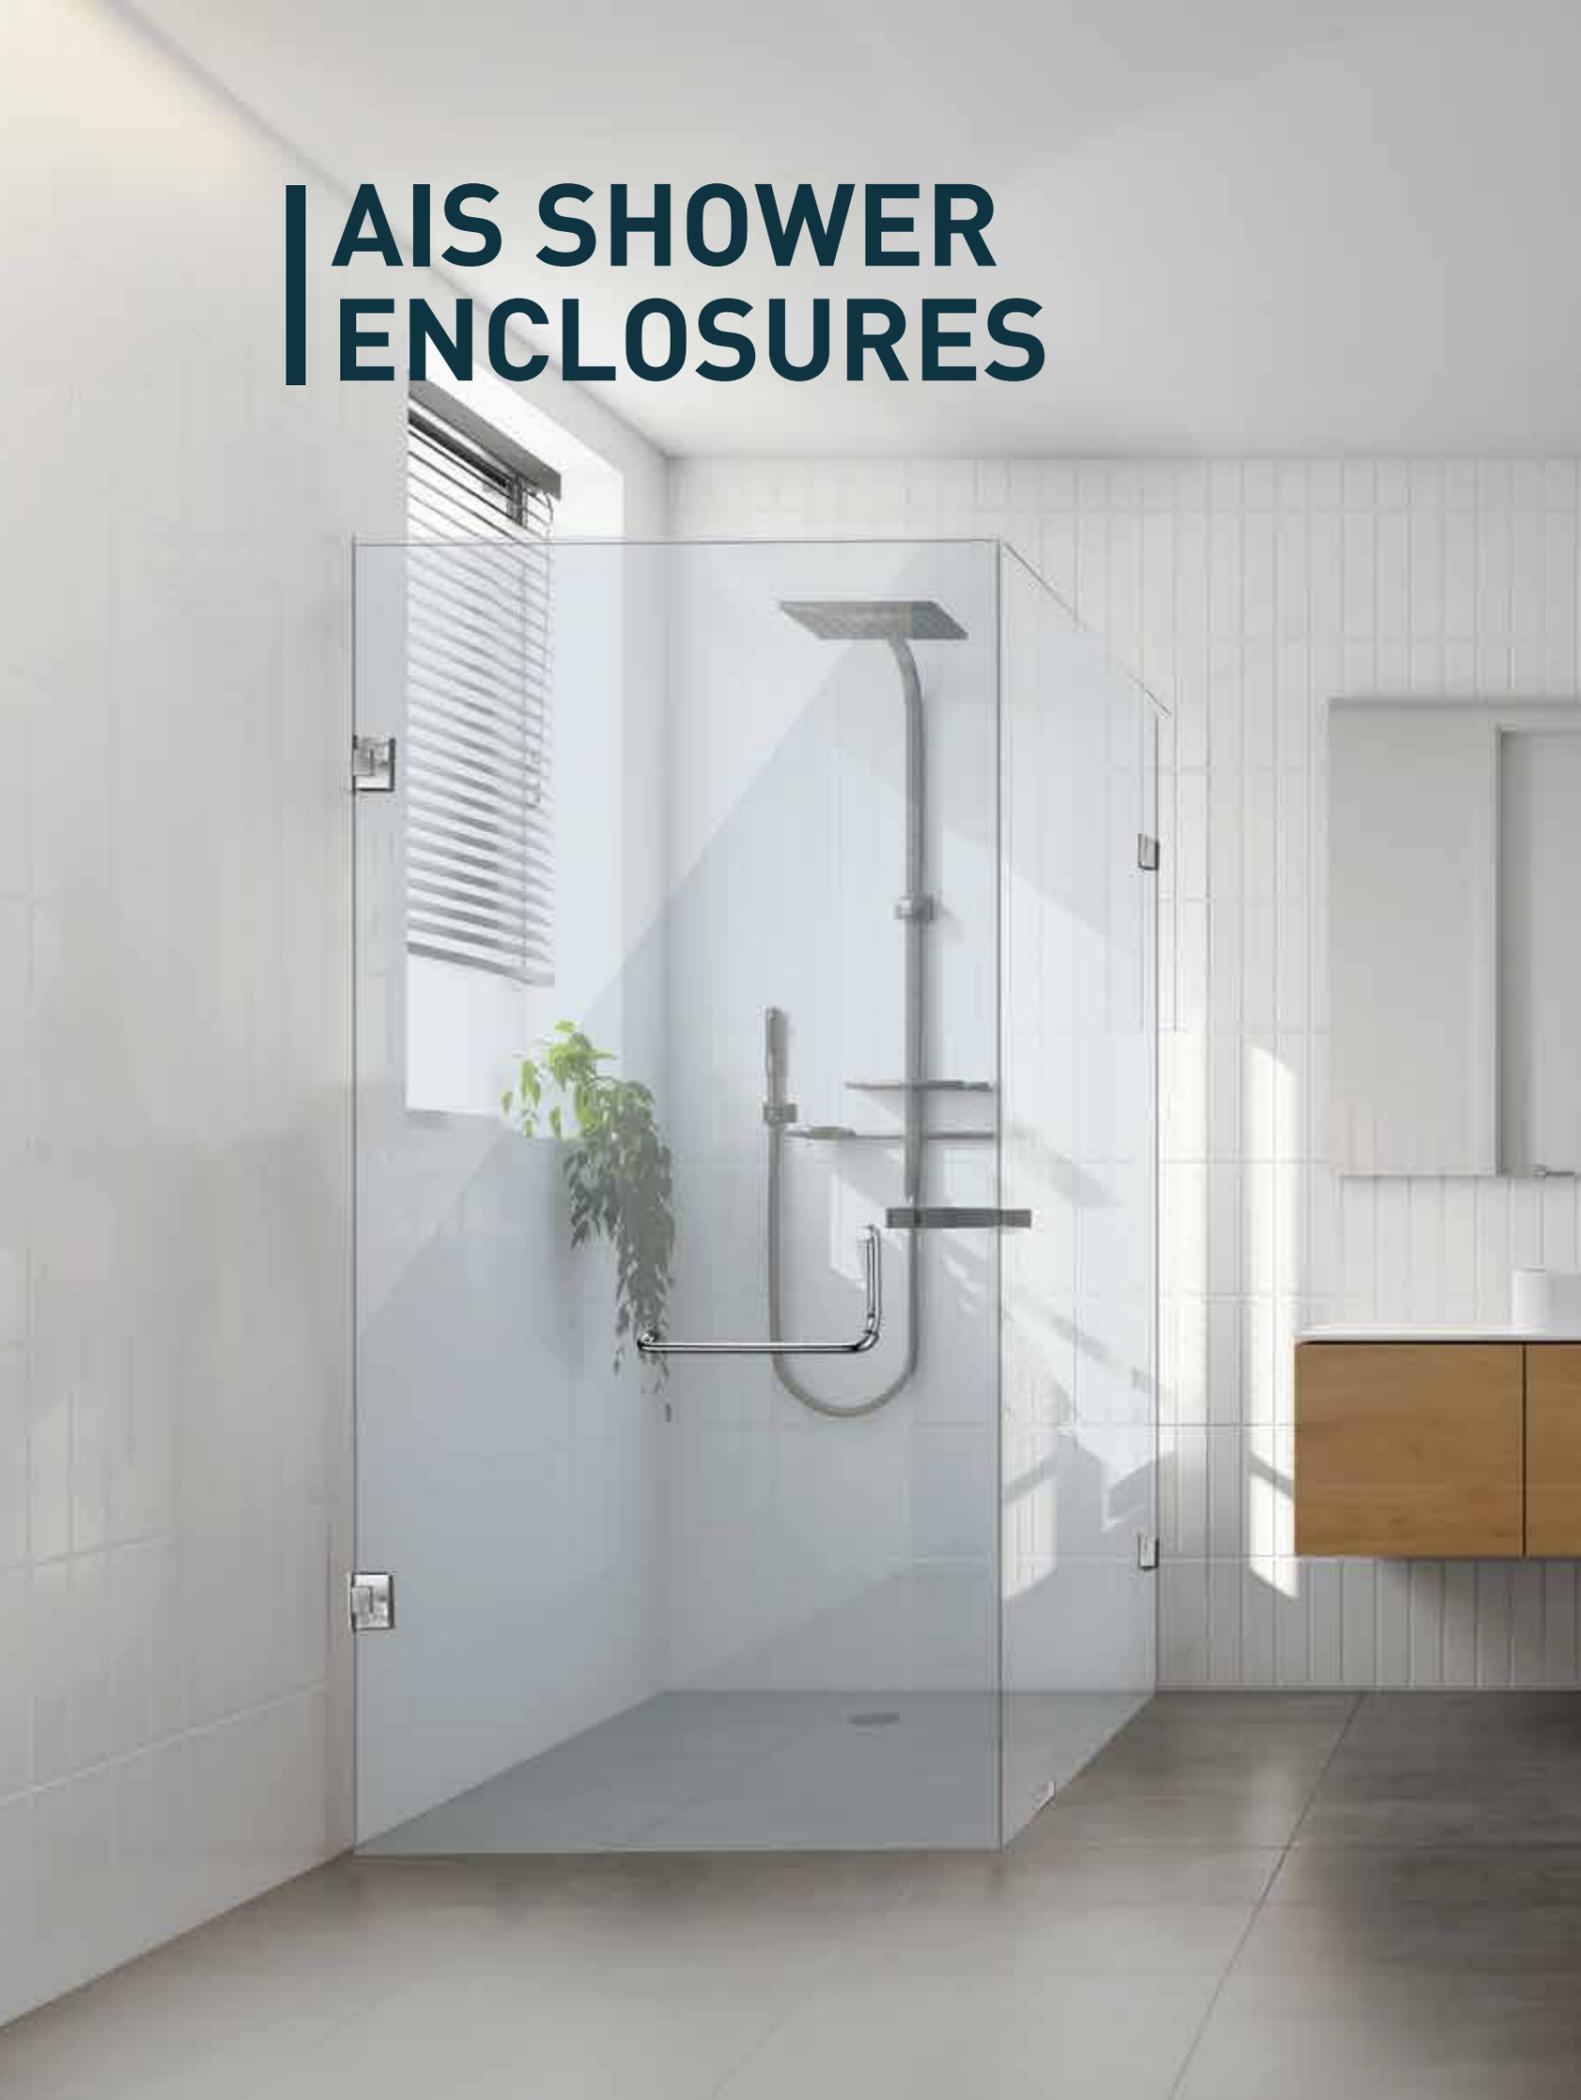

Uncompromising Quality and Craftsmanship

- AIS products maintain the highest quality of standards and artisanship.
- Every enclosure is carefully constructed to achieve a balanced blend of form and function, customised to individual preferences.

Innovative Frameless Shower Glass Partitions

- Each enclosure harmoniously merges form and function, tailored to individual tastes, to create a masterpiece in every space.
